SUMMARY

Marketing Automation Specialist who builds end-to-end GoHighLevel systems for coaches, clinics, and local service businesses. Specializes in lead-capture funnels, CRM pipelines, booking automation, and email/SMS nurture. Recovers leads lost at the booking step with timed abandoned-booking sequences. Backed by an IT degree and compliance-grade documentation habits.

CORE SKILLS

Platforms: GoHighLevel (CRM, Pipelines, Workflows, Calendars, Forms, Funnel & Website Builder), n8n

Automation: Lead capture · Nurture sequences · Booking and reminder sequences · Abandoned-booking recovery · Tags and triggers · Segmentation · Workflow testing · Post-consult upsell

Strategy & Funnels: Customer personas · Journey mapping · TOFU/MOFU/BOFU funnels · Lead magnets · Landing page copy · CTA strategy

Email & Analytics: Email and SMS marketing · KPI reporting · Google Analytics · UTM tracking · A/B testing

Business Systems: Microsoft Office · SAP Business One (Logistics & Financials) · Records management

GOHIGHLEVEL PORTFOLIO PROJECTS

Self-initiated builds for practice businesses, created to demonstrate end-to-end GoHighLevel systems.

Bloom Dental Studio

Portfolio Project

Practice brand (dental clinic, Metro Manila)

- Designed a funnel for planned Meta Ads traffic: landing page, inquiry form, and a free 30-minute consultation booking page.
- Mapped an 8-stage pipeline with tags and five workflows: reminders, recovery, upsell, recall, and review requests.
- Wrote a 3-touch no-show recovery (SMS at 1 hour, email at 24 hours, SMS at 72 hours) that tags non-responders Cold.
- Wrote a Premium Whitening offer sequence that starts only after a completed consultation and branches on link clicks.
- Set modeled targets, not live results: no-shows from 35% to under 15%, and 60 consultations in 60 days.

Calmora Psychological Services

Portfolio Project

Practice brand (psychology clinic, Cebu City)

- Designed a full lead-to-booking system in GHL: landing page, 5-minute screening assessment lead magnet, thank-you page, and booking page.
- Built a CRM pipeline with tags that tracks each lead from inquiry to booked consultation to client.
- Automated email and SMS confirmations and reminders for clinic and online consultations to reduce no-shows.
- Wrote a nurture sequence that delivers assessment results and a grounding-practices guide, then moves leads to book.
- Built a 3-step abandoned-booking recovery (1 hour, 24 hours, 72 hours) to re-engage leads who did not finish booking.
- Mapped personas, campaign plan, and TOFU/MOFU/BOFU funnel before the build.

Primal Fitness Coaching

Portfolio Project

Practice brand (online fitness coaching, "Restarting Beginner" audience)

- Built a funnel that moves wary beginners from a free 7-Day Starter Guide to a paid 4-week coaching program.
- Wrote an opt-in that asks only name, email, and an optional goal. This cuts friction at the top of the funnel.
- Set up a 6-stage GHL pipeline so every lead has a clear status. Repeat sign-ups update one record.
- Automated guide delivery, follow-up, enrollment, and onboarding. Only a verified payment counts as a client.
- Initiated test payments to check that only a verified payment moves a lead to client.

PROFESSIONAL EXPERIENCE

Administrative Assistant Jan 2024 – Present
MJM Seafoods, Punta Salong, Manapla

- Coordinated shipment documentation and supplier communication to keep orders on schedule.
- Coordinated with government agencies and organizations on waste management, raising awareness and sparking industry-wide talks on future solutions.
- Tracked transactions, reconciled accounts, and monitored expenses to support budget reporting.
- Maintained records, correspondence, and scheduling that kept daily operations running.

In-Field Mentor Sep 2023 – Jan 2024
International Missionary Training Center

- Coached trainees one-on-one and in groups through individual coaching and leadership workshops.
- Worked with mission leaders on training initiatives that improved trainee accountability.

Training Facilitator Jan 2022 – Sep 2023
Philippines Missionary Training Center

- Delivered structured, curriculum-based language training to international trainees.
- Adjusted training plans to learner progress and leadership priorities.

Junior Programmer (Intern) Oct 2018 – Feb 2019
Crave Digital Software Development

- Completed systems development training and built a Point-of-Sale system using a framework application.

EDUCATION

BS Information Technology 2014 – 2018
University of St. La Salle

- Capstone Team Lead: led a team that built a Pharmacy Locator and Ordering Application. Nominated Best Capstone Project in the IT Department.
- Defined project scope, managed timelines and resources, and built responsive web pages for cross-device use.

Certificate in Entrepreneurship June 2023
Brigham Young University – Idaho

Pathway Connect Certificate 2021 – 2022
BYU-Pathway Worldwide
